

DISCOVERING GALAPAGOS

Galapagos Eco-Footprint

ACTIVITY GUIDELINES

1. Students are asked to think about how tourists to the Galapagos Islands can make their trip more sustainable.
2. With their one 'top tip' in mind, they can write their idea on the eco-footprint and cut round the outline.
3. Students can then hang these around the classroom or the cut outs can 'walk' around the classroom on display boards.

Galapagos tourism can be
more sustainable by...
